

Justin Wilkes

Presenter, KISSTORY & Kiss FM UK

Justin can be heard presenting Friday Night Kiss on KISS UK as well as each weekday on hugely successful digital station KISSTORY.

Justin kicked off his radio career providing energetic dance mixes and rhythmic music knowledge to Choice FM. He quickly progressed to presenting all of Choice's specialist dance music shows, followed by a stint on the coveted breakfast show. He then went on to hone his skills on legendary OO's network Galaxy which led to him being spotted by Capital.

During almost seven years at London's Capital FM saw Justin win Sony Awards, present one of the most successful network shows, and help re-invent Capital's weekend sound while catapulting the Saturday night dance show to become market leader. It was then that Kiss FM came calling.

Over the past 10 years Justin has resided on prime daytime shows at Kiss FM UK, successfully establishing the 'Kisstory' show feature as a standalone sub-brand, sell-out club night, and now a standalone digital radio station.

As well as presenting, Justin's voice has been heard on national campaigns for brands like Pepsi Max, LG, Anadin, HMV, and a massive roster of international artists, Faithless, Usher, Justin Timberlake and Maroon 5 to name a few.

When not on the radio you might find Justin on a tennis court, property developing, or designing high-end a/v and automation systems.
